FOREWORD

The George Washington University in this volume presents to its graduates the record of their membership, from the first graduating class of 1824 through the June class of the University's one hundred and sixteenth year (1937).

The publication of this general ALUMNI DIRECTORY, the first issued since 1917, has been undertaken as a part of the extended program of alumni activity embarked upon by the alumni organizations and the University two years ago. At that time it was announced that the University would provide for the alumni the two mediums of communication essential to the program—a magazine and a directory. The former has been sent to all of the alumni twice yearly since May 1936; the latter now is placed in their hands.

It is our hope that in the future it may be possible to keep the ALUMNI DIRECTORY up to date by publishing new editions at definite intervals.

The present volume contains the names of 17,252 graduates, upon whom the University in the course of its history, up to June 1937, had conferred 20,665 degrees. This, however, does not represent the whole of the University's membership. Because of its character as an urban university in the National Capital, serving not only a body of full-time students who are candidates for degrees but also a large number of employed persons, many of them in the Federal service, who seek to extend their academic training, the University brings within the sphere of its educational influence many thousands who do specialized work without taking degrees. All these members we should like to include in a subsequent issue of the DIRECTORY—an undertaking which will be of considerable magnitude since the number who have been enrolled as George Washington University students is in excess of 75,000. Again, it was our desire to include a complete list of those who have served the institution as Trustees, Faculty members, and administrative officers. Publication of the DIRECTORY was delayed some months for this purpose, but unfortunately it was found that the inadequacy of early records would make it impossible to include the list in this volume. We are continuing with the preparation of such a register, which will be published in the near future as another part of this work.

This DIRECTORY is an evidence of the interest in the University program of a good friend and former student, the late Mr. Wilmer Worth, of Washington, D.C., whose generous bequest has made possible its publication and distribution to all graduates of the University.

CLOYD HECK MARVIN

President of the University

CHAPTER I

The first part of the book is devoted to a general survey of the subject. It begins with a definition of the term "philosophy" and then proceeds to a discussion of the various branches of the subject. The author then discusses the history of philosophy and the different schools of thought. The book is written in a clear and concise style and is suitable for students of philosophy.

HISTORICAL OUTLINE

1819 Association formed by Luther Rice, Obadiah B. Brown, Spencer H. Cone, and Enoch Reynolds for the purpose of buying land for use of a college and of a theological institution in the District of Columbia under the direction of the "General Missionary Convention of the Baptist denomination in the United States".

1820 Among the patrons who contribute to funds raised for the purchase of land and erection of buildings are James Monroe, President of the United States; John Quincy Adams, Secretary of State of the United States; William H. Crawford, Secretary of the Treasury; John C. Calhoun, Secretary of War; William Wirt, Attorney General; Return J. Meigs, Postmaster General; and thirty-two members of the Congress.

April 26. Petition for the incorporation of the General Convention of the Baptist Denomination in the District of Columbia for evangelical and literary purposes denied by Congress.

November 30. Having failed to secure a charter for an educational institution under denominational control, members of the Association of 1819 cause to have presented in Congress a bill for the incorporation of the Columbian Society for literary purposes, it being proposed to realize in this way "the aspirations of Washington, Jefferson and Madison for the erection of a university at the seat of the federal government".

1821 February 9. Columbian College in the District of Columbia chartered by Act of Congress, with the special provision "That persons of every religious denomination shall be capable of being elected Trustees; nor shall any person, either as President, Professor, Tutor or pupil, be refused admittance into said College, or denied any of the privileges, immunities, or advantages thereof, for or on account of his sentiments in matters of religion".

William Staughton elected first President.

The Preparatory School established (name changed to the Columbian Academy 1895; discontinued 1897).

1822 Columbian College occupies its first home on "College Hill", a plot of 47 acres north of Boundary Street (now Florida Avenue) between Fourteenth and Fifteenth Streets NW. Streets laid out around the College are given the names of College notables. (Traces of its occupancy of Columbia Heights remain today in "University Place" and "Chapin Street", the latter named for the University's second President.)

January 9. Inauguration of the Faculty in College Hall.

1824 December 15. First Commencement held with a distinguished company in attendance, headed by President Monroe, members of his Cabinet, and the Marquis de Lafayette, then on his farewell visit to the United States. The Congress and the Supreme Court of the United States adjourn their sessions to enable their members to attend.

1825 The School of Medicine established.

The Theological Department of Columbian College discontinued.

1826 The Law School established (discontinued 1827; reopened 1865).

- 1828 Stephen Chapin elected second President.

ORGANIZATION OF THE ALUMNI

The alumni organizations of The George Washington University provide a medium through which the University and its graduates and former students may keep in close touch for purposes of mutual helpfulness.

THE ALUMNI OFFICE

These activities are coordinated through the Alumni Office, which is maintained by the University as the point of contact with these organizations and the individual alumnus. The Alumni Secretary of the University, who is in charge of the Alumni Office, serves also as Executive Secretary of the General Alumni Association, working in cooperation with it and with all other alumni groups. He is charged with carrying out the alumni program and with the maintenance of continuing relations between the graduates and the University. Frequent visits by the Alumni Secretary and other University officers to alumni throughout the United States bring them into direct contact with the progress of the University.

The records of the alumni on file in this office include lists of all who have received degrees since the founding of the University, an address file of living alumni, and class lists. Biographical information concerning graduates and former students is compiled here, and graduates are urged to forward such information, notice of a change in address, and inquiries to the Alumni Office.

Alumni Secretary.—Lester Allan Smith, A.B. in L.S. 32, A.M. in L.S. 35; Columbian House, 2033 G Street, Washington, D. C.

THE GENERAL ALUMNI ASSOCIATION

The General Alumni Association is the body through which the efforts of the National Alumni Council, the organized alumni of the professional schools, and the regional and departmental clubs are united. Its history dates from July 14, 1847, when it was organized as the Alumni Association of the Columbian College. It continued active until 1874, and was reorganized February 28, 1887, at which time the membership was enlarged to include graduates of all Schools of the University.

The objects of the Association are "to unite the graduates in closer sympathy and to promote the general welfare of the University".

Membership includes the following: (*a*) graduates of any School, College, or Division of the University, (*b*) persons who have regularly matriculated and been in regular attendance for one year and who have left the University in good standing, (*c*) holders of honorary degrees from the University, and (*d*) members of the Board of Trustees and of the Faculties of the University. Members of the Medical Society, the Law Association, the Library Science Association, and the Engineer Association hold secondary membership in the General Association without payment of additional dues.

The officers of the Association include the President, eight Vice Presidents representing the Schools of the University, the Executive Secretary, the Treasurer, and the Assistant Treasurer, all of whom are elected at the annual meeting. These officers serve on the Executive Committee, which also includes, by appointment of the President, two representatives of each School.

PREFACE

The present ALUMNI DIRECTORY records information concerning holders of degrees conferred by The George Washington University from 1824 to June 1937 inclusive.

In the interest of conserving space and of minimizing typographical error, a compressed style with as little punctuation as is consistent with clarity has been adopted for the DIRECTORY, and a generous use has been made of abbreviations. However, spacing has been employed to set off the groups of information, and any word ordinarily abbreviated is written in full in a context where the abbreviation might cause misunderstanding. It is hoped that with the aid of the following explanatory paragraphs and lists of symbols and abbreviations the individual entries in the DIRECTORY will be found readily intelligible.

The DIRECTORY comprises three lists: alphabetical, class, and geographical.

ALPHABETICAL LIST

This list contains the names of all recipients of degrees from 1824 through June 1937, arranged in alphabetical order, together with degrees received from The George Washington University and, so far as they are known, degrees received from other institutions. For all living alumni, the occupation and address are given so far as this information was available. For deceased alumni, the entry is preceded by a dagger (†).

All information will be found under the maiden name of a woman not married at the time of her first graduation, whether or not a second degree was obtained after her marriage; but in the case of a woman married at the time of her first graduation all information will be found under her legal married name. In both cases the husband's name preceded by "Mrs" is given in parentheses, and a cross reference appears in the proper place. In the case of change of name other than by marriage, all information will be found under the new name; no reference to the former name is carried.

Degrees are printed in italics, those from The George Washington University listed first in order of attainment. Degrees from other institutions follow, set within parentheses and grouped by institutions. The century is indicated for years up to and including 1875; only the last two numerals of the century are indicated for subsequent years. Degrees conferred as of a preceding year are given the date of the earlier year. No degrees from other institutions are listed for those alumni who hold only honorary degrees from The George Washington University. A degree that customarily is an honorary degree is not distinguished as such, but a degree that usually is earned in course is followed by *h* if bestowed as honorary; in the class list, moreover, in every instance in which the degree conferred was honorary the name of the recipient is followed by *h*. Names of institutions are given in the form used by the Educational Directory of the United States Office of Education, 1937 edition. When two or more institutions of the same name exist, the State or city in which the one referred to is situated is given in brackets unless the context makes clear which is meant. The name of a foreign institution is followed in brackets by the name of the country in which it is situated.

In listing the occupation, the name of the firm, branch of the Federal Government, or other institution with which the alumnus is currently associated is given,

followed by the name of the city in which it is situated if this differs from the city of residence; except that branches of the Federal Government are assumed to be in the District of Columbia unless otherwise stated. If the alumnus has retired, the rank or title which he held immediately prior to retirement is given together with the abbreviation "ret". Except in a few cases organization or civic honors are not listed, nor are ranks of officers in the reserve forces of the United States.

Residence addresses are preceded by *Res.* Addresses are given in the form preferred by the individual alumnus as indicated on DIRECTORY information cards returned. For this reason, particularly in the suburbs of Washington, D.C., small communities which fall under one listing in the United States Postal Guide are sometimes entered separately (as Alta Vista, Battery Park, Edgemoor [Maryland]), which in the Postal Guide are all included in the limits of Bethesda). All street addresses within the District of Columbia are given without indication of the community; moreover, street addresses are assumed to be Northwest unless otherwise indicated. The absence of an address signifies that the DIRECTORY staff has been unable to trace the alumnus.

New material received up to the time of going to press, September 1938, has been incorporated, except that, inasmuch as it was not possible to list in the Directory any class later than that of June 1937, it was thought best to include no degree obtained since that time.

CLASS LIST

This list is arranged chronologically, including alphabetically under each year the names of all persons who received degrees in that year. Names of men appear with initial(s) alone; those of women bear one given name and other initial(s), following the surname under which the alumna in question obtained her first degree. If more than one degree was obtained by an alumnus in any one year, the number obtained appears in parentheses following the name. If the degree was honorary, (*h*) follows the name.

GEOGRAPHICAL LIST

This list is arranged alphabetically by names of States and by names of territories and dependencies of the United States and foreign countries, with cities alphabetically under each. Under each city appear alphabetically the names of all alumni known to be living in that city. Names of men and of unmarried women appear as in the class list, but a married woman is listed under her husband's surname with "Mrs" prefixed to his initials, when these are known.

In compiling the DIRECTORY every effort has been made to secure as complete and accurate information as possible. On four separate occasions questionnaires asking for information for the DIRECTORY were issued to all alumni on the mailing list. In addition, there was sent to all alumni a list of the graduates whose addresses were unknown, with a request for assistance in locating them. As a result of the responses to this request more than 600 graduates were found. The cooperation of the alumni has been most gratifying, and the University is greatly indebted to the many persons who have graciously and promptly supplied and verified information for the DIRECTORY.

Alumni Directory

A compilation of this sort, where accuracy depends upon the collaboration of a great many persons, is subject to errors and omissions; corrections and additions sent by the users of this volume will be appreciatively received. The DIRECTORY staff has made every effort to ensure the correctness of all information, and has consulted a wide variety of sources wherever it was without recent information sent by the alumnus himself; direct communication from the alumnus, however, has been assumed to be accurate.
